All unit/retail-sized products arrive unlabeled to accommodate your own branding. However, if you wish to order these items with our in-house label, you may do so by selecting your labeling preference and the appropriate quantity in our Packaging & Labeling section. Additional fees apply.

Product Shelf Life

12 months from date of manufacture is our best recommendation. Exceptions may include products made with high percentages of fixed oils and butters, such as facial and massage oils, which are more fragile and may expire sooner. To find the date of manufacture, look for the Batch Number on each product. The Batch Number for each product will be the Month, Day and Year of product made. For example, Batch Number 040518 means the product was made on April 5th 2018. The Period After Opening varies from 6 months to 18 months depending on product type, specific ingredients, container, and storage conditions.

Shipping & Handling

We use UPS standard ground service unless otherwise stated. Customers are responsible for shipping and handling costs, and shipping rates are subject to change without notice. Clients not purchasing via the KM Herbals E-commerce store may inquire to provide their own shipping method or account number, however, a handling charge will be applied to cover KMH packing and supplies.
